<p>Declaration GGV 2017-02-00</p>	

According to section 7.9.1 of the IMDG code, the undersigned, competent authority of the Kingdom of Belgium hereby declares that UN 2924, WASTE, FLAMMABLE LIQUID, CORROSIVE, N.O.S., (acetone and trifluoroacetic acid), 3 (8), PG II, Marine Pollutant may be transported on seagoing vessels packaged in a portable tank on the conditions specified hereafter:

- This authorisation is limited to the portable tank VEWU 200102-5. The portable tank may be a T7 instead of a T11 and shall at least comply with the requirements of a L4BH ADR tank;
- To limit the maximum allowable working pressure, the portable tank shall be equipped with a bursting disk on 3 bar and safety valve shall be installed at 2.6 bar;
- The portable tank shall comply with the requirements of a IMO4 portable tank with the exception that it may be transported independently from a chassis on wheels;
- The transport shall be a short international voyage;
- Only on deck stowage is allowed;
- All other relevant provisions of the IMDG code shall be complied with;
- A copy of the declaration shall accompany the transport documents;
- The representatives of the transport shall send to the Maritime Inspectorate, Ostend Bureau detailed report of any accident occurring during the loading or unloading of a vessel, the transport to and from the port area and the voyage;
- This administration reserves the right to withdraw this declaration at any time it considers necessary to do so.

In any case this declaration will expire on the 30th of September 2018.

Gavere-Asper, 5th of September 2017

ing. P. Van Lancker, attaché
